5:30 – 5:55 Sharing of remaining papers - Nominate someone at your table to summarize the discussions at your table for the whole group.

5:55 – 6:00 Closing remarks

The following papers were accepted for the 2016 SIG Health Workshop:

Suzanne Weisband
University of Arizona
Usability of mHealth Apps: A Review and Guidelines

Renee M. E. Pratt
University of Massacusetts - Amherst
The Benefits of Implementing Open Source-based EHRs: A case study

Changmi Jung, Rema Padman, Linda Argote, Ateev Mehrotra
Johns Hopkins University, Carnegie Mellon University, Carnegie Mellon University, Harvard University
Impact of Organizational Usage Experience on Service Operation Efficiency: A Study of Online Care Delivery

Elizabeth A. Regan, Ajmal Agha
University of South Carolina
The Impact of Health Information Technology: Critical Role of Executive Leadership in Achieving Value

Hamzah Ibrahim
Claremont Graduate University
Development and Evaluation of a Self-Monitoring Complexity Index (SMCI) using Mobile Health

Nilesh Saraf
Simon Fraser University
Social Media and Mental Health: Investigating Behavioral Contagion of Celebrity Suicides

Steven Mertens, Frederik Gailly, Geert Poels
Ghent University
Discovering and Modelling Healthcare Processes: DeciClare

Haibo Hao
University of Massachusetts Boston
Digitial Divide in Online Health Utilization in China: A Case Study of Geographic Health Analytics

Victoria Kisekka
University of Albany
The healthcare socio-technical system: An extension of the DeLone and McLean IS Success Model

Pasi Karppinen
University of Oulu
Studying behavior change by Using Outcome/Change matrix

Sohyun In, Chunghan Kang, Junghoon Moon(Corresponding author)
Seoul National University
Use of a Healthcare Management System to Manage Weight: Perspectives fromProtection Motivation Theory

Josianne Marsan, Anne-Marie Croteau, Luc K. Audebrand, Nura Jabagi
Université Laval, Concordia University, Université Laval, Concordia University,
Healthcare Service Innovation Based on Information Technology

Wen Yong Chua
National University of Singapore
An Investigation of Individual's Willingness to Adopt Wearable Devices with Personal Health Record System on Healthcare Quality

G Kenny, C Heavin, Y O'Connor, E Eze, E Ndibuagu
University College Cork, University College Cork, University College Cork, Enugu State University College of Medicine
Towards a Shared Mental Model: A Case of Mobile Health Intervention in Nigeria, Africa

Mayank Kumar and Jang Bahadur Singh
Indian Institute of Management Tiruchirappalli
Multi-Level Perspective on User Resistance of Health Information Technology: A Conceptual Model

Sumate Permwonguswa, Jiban Khuntia, Dobin Yim, Dawn Gregg
University of Colorado Denver, University of Colorado Denver, Fordham University,University of Colorado Denver
Influence of Information Systems in Managing Self-Esteem: Evidence from a Health Infomediary

Debra Burleson
Baylor University
ICT Implementation: Identifying Users' Perceptions of Patient-Medical Provider Communication

Trevor Clohessy, Grace Kenny
National University of Ireland, University College Cork
The Impact of Gamification on mHealth Fitness Application Privacy Literacy

Edin Smailhodzic; Albert Boonstra; David J. Langley
University of Groningen
Effects of patients' social media use on the doctor-patient relationship

Aideen Lawlor, Dr Ciara Heavin, Dr Yvonne OConnor, Laura Lynch
University College Cork

Predicting Decision Autonomy Through Situated Awareness: Towards a Better Understanding of Informed Consent on Health Social Network Sites

Stephen McCarthy, Paidi O'Raghallaigh, Ciara Fitzgerald, Frédéric Adam
University College Cork
The Participatory Design of HIT Solutions: A Case Study on the Challenges of Interdisciplinary Stakeholder Involvement

Paidi ORaghallaigh, Stephen Lane, Frederic Adam, David Sammon
University College Cork
Using Boundary Objects to Determine Software Requirements – An Exploratory Case Study from Healthcare

Ofir Ben-Assuli, Bruce Rosen, Orit Karnieli-Miller
Ono Academic College, Meyers-JDC-Brookdale Institute, Tel-Aviv University
Adoption of Israeli HIE System: National Study

Ofir Ben Assuli, Rema Padman, Itamar Shabtai
Ono Academic College, Carnegie Mellon University, College of Management Academic Studies Rishon LeTsiyon
Analyzing Frequent Hospital Readmissions

Rema Padman, Malte Ganssauge
Carnegie Mellon University, TU Munich
Exploring dynamic risk prediction for dialysis patients

Ranganathan C, Ali Tafti
University of Illinois - Chicago
Use of Twitter by US Healthcare Organizations: Assessing the Social Influence of Tweets

Alessandro Zardini
University of Verona
Lights and Shadows in the implementation of the electronic medical record: a comparative case studies

Andy Weeger, Heiko Gewald and Corinna Gewald
Neu-Ulm University of Applied Sciences
Is it that only money matters? A cross-national analysis of health information system usage
